YWP TACKLING WATER CRISES

How can we manage water crises?

The Austrian Young Water Professionals (YWP) jointly with IAWD organise a YWP workshop on 13 May 2025, held back-to-back with the 2025 Danube Water Conference (14-16 May 2025), where sector professionals from the Danube region come together to tackle real-world water challenges.

Join us for a **YWP Day on Crisis Management in the Water Service Sector**, where you will learn through expert insights and interactive sessions on how to handle crises in water services. Wrap up the day with drinks, networking, and a fun PowerPoint karaoke session!

For approximately 15 Young Water Professionals from the Danube region (one per country) travel and accommodation costs can be covered. They will also have the opportunity to participate in the 2025 Danube Water Conference for free, in case they are willing to support the organising team!

To receive financial support, please reach out to Lena Schober (schober@iawd.at).

Further information and registration can be found on the event's page: [VoD - YWPs Tackling Water Crisis](#)

As seats are limited, please register as soon as possible, but not later than 15 April 2025.

AGENDA OUTLINE:

Tuesday , 13 May 2025
