

Water Safety Planning & Crisis Management

Safe drinking water supply in case of pollution outbreaks and throughout natural disasters?

Learn how to prepare and apply Water Safety and Crisis Management Planning in a utility!

7—8 May 2018, Zagreb, Croatia

Pre-Conference Training at the 10th Eastern European YWP Conference

Participants will learn how to identify operational hazards and how to plan, prepare and respond to these incidents for fast recovery in the event of a crisis or disaster. The training is tailor-made for staff of water utilities, but can be also attended by other water professionals depending on the available space.

This training is based on the Training Program “Water Safety and Crisis Management: Business Continuity Essentials for Disaster Risk Management”, which will be offered within the Danube region (e.g. Serbia, Kosovo, FYR Macedonia) under the **Danube Learning Partnership** (a committee of IAWD) and with financial support from the **Danube Water Program** and the **Global Facility for Disaster Reduction and Recovery (GFDRR)**.

For **further information**, please contact Katerina Schilling (schilling@iawd.at) or Elvira Broeks Motta (ebroeksmotta@worldbank.org).
