

Business Continuity Planning Prepared Response to Epidemics / Pandemics

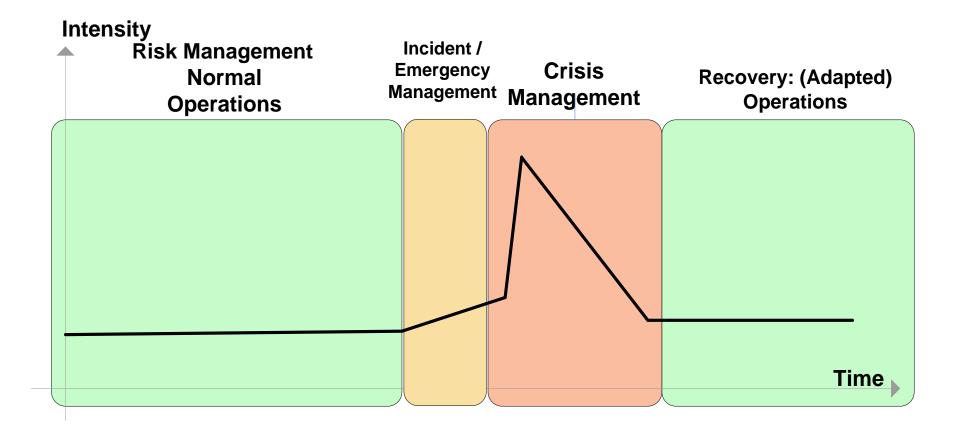

Agenda

- Business Continuity Planning
- Pandemics BCP
- BCP Key Element: Risk Management / WSP
- BSP Key Element: Crisis Management

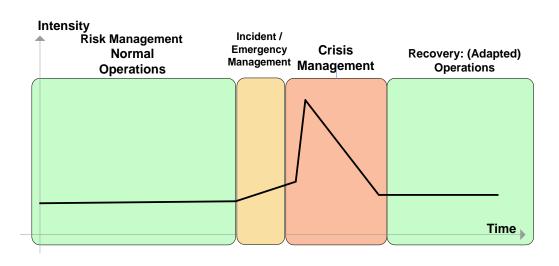

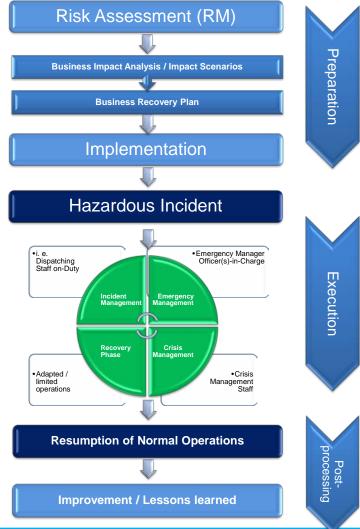

Business Continuity Planning

Epidemics / Pandemics BCP: Core Measures

- Technical Contents of a Pandemics Preparedness Plan:
 - Relevant organisations and institutions
 - Minimal requirements of personnel (critical works & services)
 - Identified key personnel and functions in your organization
 - Identified persons with elevated risk
 - Identified functions with elevated risk
 - Specified suitable protective measures
 - Organisational measures

Communications

Information for employees, costumers, consumers. Define communications responsibilities, crisis management

Epidemics / Pandemics BCP: Phased Approach

- Define phases of epidemic / pandemic
 - Compatible with your national pandemics plan
 - Compatible with your regional / municipal pandemics plan
 - Compatible with your own organisation

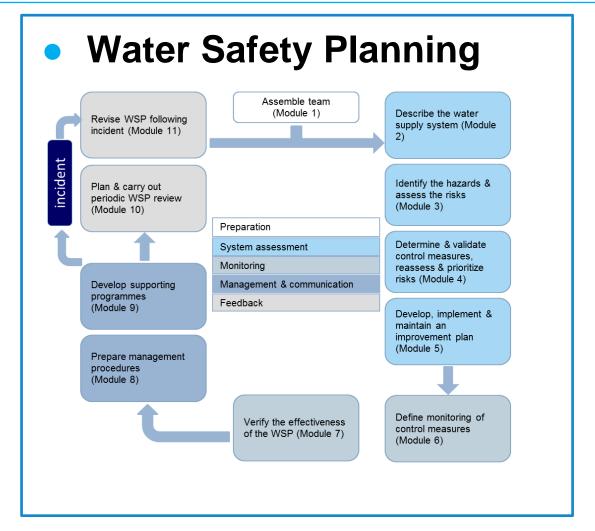

Sample phases:

- Phase 1: pandemic breaks out somewhere in the world
- Phase 2 a: first case in your country
- Phase 2 b: first case in your city / region
- Phase 3: mass infections and / or first pandemic case in your own organization
- Phase 4: recovery phase

→ Use available Crisis Management tools / methodology
