

European Water Resilience Strategy

June 2025

The European Water Resilience Strategy paves the way for a water-smart Europe for people, the economy and our ecosystems.

It contains concrete actions up to 2030 to make Europe water resilient.

Water is a finite resource. 34% of the EU is affected by water scarcity.

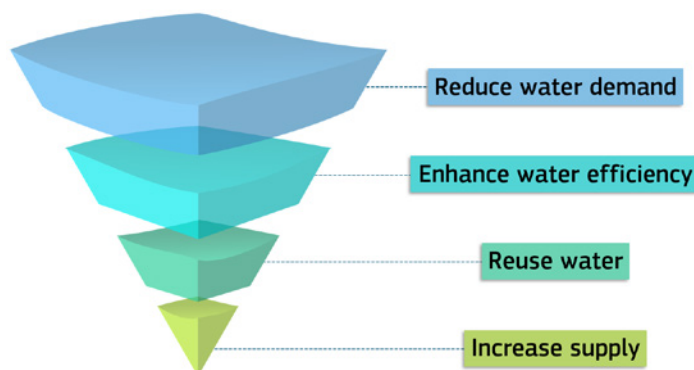

The European Water Resilience Strategy aims to:

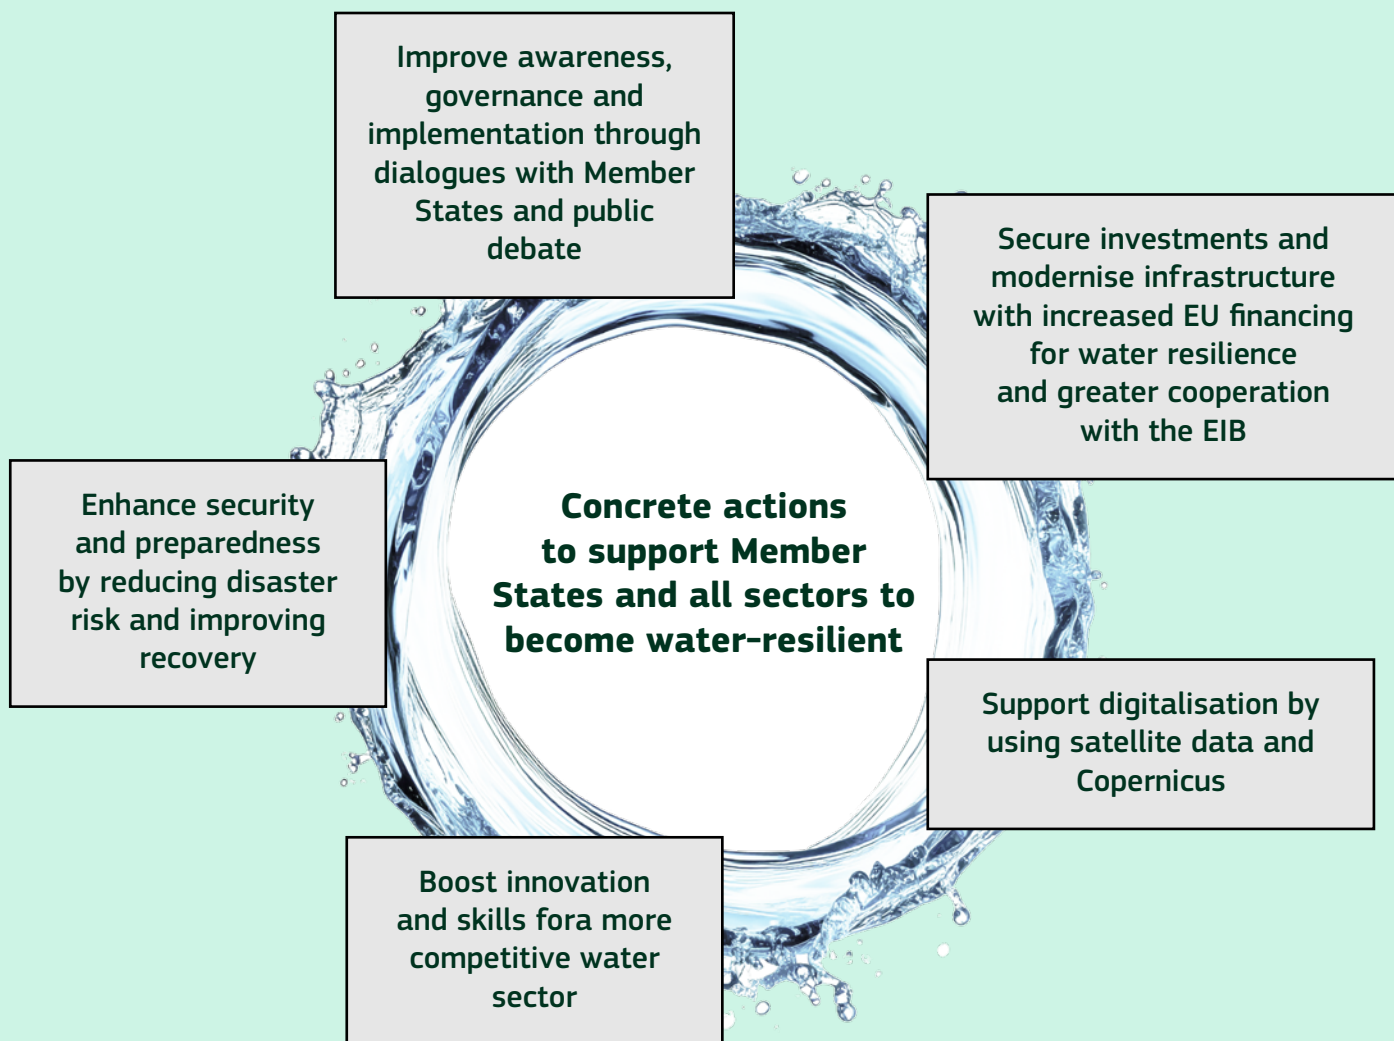

Restore
and protect
the water cycle

Build a
water-smart economy
to boost competitiveness
and attract investments

Clean and affordable
water and sanitation
for all

Water efficiency first principle
