

Utility Management Training: A master class for holistic management in the water sector

25 November 2020, 14:00 – 15:30 CET

Location:

virtual

Objective: The need to support and enhance the management culture in the water utility sector is undisputed. Utilizing the already-developed D-LeaP programs (www.d-leap.org), IAWD with the support of the World Bank in the frame of the Danube Water Program has developed the Utility Management Training (UMT) to “equip” current and future water-sector managers with tools and techniques to support their decision making.

This event will showcase the structure and logistics of the Utility Management Training and introduce the academic, utility and competence partners, which support the program delivery.

GDPR disclaimer: The event will be fully recorded. We reserve the right to use the recording for publication on our websites (iawd.at, danube-water-program.org, d-leap.org, worldbank.org), and social media channels. By participating in the event, you agree to the disclaimer above.

For further information, please download the data privacy statement of IAWD on our website: www.iawd.at

Registration: To join the meeting, please register yourself [here](#).
