WELCOME

SHUKOS and SHUKALB are pleased to invite you to join us at our 9th Balkans Joint Conference and Exhibition to be held as a **virtual** event on **3-5 November 2021**.

The Conference Theme, **Valuing Water**, is inspired by UN's 2021 World Water Day, and it emphasizes the fact that how we value water determines how water is managed and shared. The value of water is about much more than its price – water has enormous and complex value for our households, culture, health, education, economics and the integrity of our natural environment. If we overlook any of these values, we risk mismanaging this finite, irreplaceable resource.

The Balkans Joint Conference and Exhibition has already established itself as a major knowledge sharing and networking event in the Western Balkans water sector, and SHUKALB and SHUKOS are committed to make this year's virtual event just as interesting and valuable to all the participants. The participants will be able to follow the live streaming of technical sessions, plenary sessions as well as panel discussions. In addition, the participants will be able to visit the virtual exhibit hall and view the products and services offered by our private sector companies who are active in the water sector in the Balkans Region.

We look forward to welcoming you to our Joint Conference and Exhibition and to sharing our common interest for a better water environment for the Greater Balkans.

Mr. Agron Tigani
President
SHUKOS

Mr. Petrit Tare
President
SHUKALB

THE CONFERENCE

The Conference Program allows for a broad range of topic areas covering from policy to technical, as well as management issues of the water sector. The conference provides a platform for discussion, where all participants can share their knowledge and experience in dealing with water sector issues.

The main themes of the Conference are:

- Governance and Management of Water Utilities
- Regulatory Framework
- Management of Water Supply and Sewerage Infrastructure
- Water Resources Management
- Financial Management of Water Utilities
- Technical Operation and Maintenance of Water Supply and Sewerage Utilities
- Wastewater Treatment and Sludge Management
- Customer Service
- Human Resources Management
- Crisis and Risk Management

TECHNICAL EXHIBITION

Utilities cannot deliver high quality water supply and sewerage services without the proper equipment, technologies, software and chemicals provided by private companies that are engaged in the water sector. Moreover, our past events have taught us that participation of exhibitor companies greatly enriches the experience of Conference attendees through presenting to them the latest products and services, and by taking part on the Conference program and discussions.

This year, through the virtual platform the exhibiting companies will have at their disposal a dedicated space which will be easily accessible to all participants in the Conference, as well as the opportunity to showcase their products and services from anywhere.

We welcome companies from around the world to show their products and services, and join the discussion on current issues in the water supply and sewerage sector

REGISTRATION TO THE EXHIBITION

The exhibition area is organized through a virtual platform allowing for every exhibitor the opportunity to present their products and company through pre-recorded videos, images, and other relevant information. The exhibition platform is accessible at the event website under the [Virtual Exhibition](#) platform session and will be promoted to all virtual participants throughout the duration of the Conference. In addition, the exhibiting companies will have the opportunity to interact and chat directly with the Conference participants.

Exhibition Virtual Space Fees in Euro
