

How **STRABAG** Secures Skills and Talent: Building the Water Workforce of Tomorrow

STRABAG Example

Specialised. Solution oriented.

STRABAG WATER is offering
solutions in the Business fields
**WATER TREATMENT AND
WASTEWATER & SLUDGE
TREATMENT**

Our strength are **state of the art
solutions from a single source:**
to design, build and operate modern
construction projects with high
quality, energy efficiency, cost truth
and on-schedule.

STUDENT IDENTIFICATION AND INVOLVEMENT AT THE PROJECT

Dora Hećimović started to work in a plant on-site laboratory as a **student** (May 2025) and became an **employee** as a process engineer (October 2025).

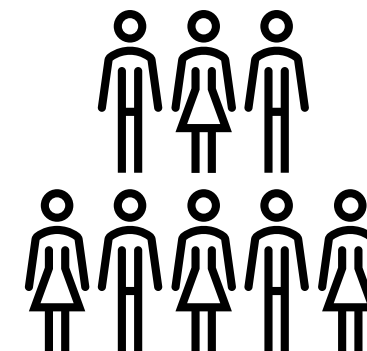

Future plans:

To continue established cooperation and explore further contribution potential towards common goal:

Building the Water Workforce of Tomorrow
